Re: Elk Hills Power Project (Docket No. 99-AFC-1C): Notice of Upstream Ownership Change

Dear Ms. Dermer:

I am writing to inform you of a change of upstream ownership for Elk Hills Power, LLC. Elk Hills Power, LLC's membership units were formerly owned and held by subsidiaries of Occidental Petroleum Corporation.<sup>1</sup> On December 1, 2014, Occidental Petroleum Corporation spun off its California assets into a new California based entity, California Resources Corporation, a Delaware corporation licensed to do business in California (CRC). As a result of this spinoff, the membership interests in Elk Hills Power, LLC have been transferred to California Resources Elk Hills LLC (CREH), a subsidiary of CRC.

Elk Hills Power, LLC is providing this notice of transfer to enable Elk Hills Power, LLC to respond to any questions the Environmental Protection Agency Region IX (EPA) may have regarding this transfer of membership units in Elk Hills Power, LLC to CREH.

Elk Hills Power, LLC remains an intact entity and continues to own and operate the Elk Hills Power Plant. Elk Hills Power, LLC remains the entity responsible for compliance with the EPA UIC permit conditions and continues to comply with those conditions. Furthermore, the operation of the Elk Hills Power Plant by Elk Hills Power, LLC has not changed.

Please let us know if you have any questions regarding this transaction.

Sincerely yours,

John Hegeman  
Manager Field Operations  
California Resources Elk Hills LLC

<sup>1</sup> Elk Hills Power, LLC was held by EHPP Holdings Inc.; EHPP Holdings Inc. was held by Occidental Energy Ventures Corp.; Occidental Energy Ventures Corp. was held by Oxy Energy Services, Inc.; Oxy Energy Services, Inc. was held by Occidental Petroleum Investment Corporation; and Occidental Petroleum Investment Corporation was held by Occidental Petroleum Corporation.
